REMARKS

The instant Renewed Petition under 1.78 is being filed in response to the Decision on Petition of February 25, 2004 dismissing the Petition of November 3, 2003 supplemented January 15, 2004. The instant Renewed Petition is being submitted to include an amendment to the specification expressly referring to applications from which priority under 35 USC 120 is being claimed, and omitting any incorporations by reference in the amendment.

The undersigned would like to thank Ms. Karen Creasy of the Office of Petitions for her direction that the instant submission be filed during a telephone conference on March 1, 2004.

Applicants thus respectfully request that the above identified patent application be permitted: (1) to constitute, under 37 CFR 1.53(b), a continuation-in-part of co-pending utility application serial number 09/930,287 filed August 16, 2001, and (2) to claim the benefit, under 35 USC 120 of:

- a. the filing date of co-pending utility application serial number 09/930,287 filed August 16, 2001; and
- b. the filing date of provisional application serial number 60/225,659 filed August 16, 2000, from which application serial number 09/930,287 claims benefit under 35 USC 120.

The entire delay between the date on which the above claims for priority were due and the date of this submission was unintentional.

The petition fee for an unintentionally delayed claim for priority under 37 C.F.R. §1.78(a)(3) pursuant to 37 C.F.R. §1.17(t) was already authorized to be paid in the Petition filed on November 3, 2003.

The Commissioner is authorized to charge the above fee and any additional fees, or to credit any overpayment, to Kenyon & Kenyon Deposit Account No. 11-0600.

The Office is invited to contact the undersigned to discuss any matter regarding this Submission.

Respectfully submitted,

Date: 03 - 01 - 04
